PROFESSIONAL SUMMARY

Entry-level Generative AI Engineer candidate with project experience integrating LLMs into media analysis, summarization, structured extraction and retrieval-augmented question answering. Familiar with OpenRouter, LangChain, Chroma, embeddings, speech transcription and FastAPI-based applications. Interested in building useful, grounded LLM applications.

TECHNICAL SKILLS

• Programming & backend: Python, JavaScript, FastAPI, Streamlit, Node.js

• LLM applications: OpenRouter integrations, prompt-based summarization and structured extraction

• RAG & retrieval: LangChain, Chroma, embeddings, transcript chunking and retrieval

• Speech processing: Whisper, Sarvam AI, audio chunking and transcription workflows

• Application stack: React, Vite, MongoDB, Redis, Qdrant, Git, GitHub

PROJECTS

CortexAI — Full-Stack AI Chat Platform | React, Vite, Node.js, Express, LangChain/LangGraph, MongoDB, Redis, Qdrant, Tavily

• Designed/documented a full-stack AI chat platform with gateway, authentication, chat, agent and billing services.

• Configured LLM-provider, web-search and vector-search integrations within a modular backend architecture.

• Repository: https://github.com/Ansh01612/cortexai | Demo: https://cortex-ai-rho-khaki.vercel.app/

AI Video Analyzer | Python, FastAPI, Streamlit, Whisper, Sarvam AI, OpenRouter, LangChain, Chroma, RAG

• Processes YouTube videos or local media into transcripts, summaries, action items, decisions and open questions.

• Uses LLM integration for summarization and structured extraction, plus a Chroma-backed retrieval workflow for transcript question answering.

• Supports English/Hinglish transcription paths and chunked audio processing through configured transcription providers.

• Repository: https://github.com/Ansh01612/Ai-video-analyzer | Demo: https://ai-video-analyzer-4454.vercel.app/

Next Thought — LSTM Sentence Generator | TensorFlow/Keras, LSTM, TensorFlow.js, JavaScript, Vite

• Built/documented a browser-based text-generation project that predicts subsequent words from a prompt.

• Uses saved model and tokenizer artifacts for iterative inference; the browser version processes prompts on-device.

• Repository: https://github.com/Ansh01612/-LSTM-Next-Word-Sentence-Generator | Demo: https://nextwordpred.vercel.app/

EXPERIENCE

Artificial Intelligence Intern | CODTECH IT Solutions | Remote | Oct 2024 – Nov 2024

• Worked on AI-agent-related tasks during a remote internship.

• Technologies reported: Python, Pandas, NumPy and scikit-learn.

LEADERSHIP EXPERIENCE

Community Lead & Founding Member | Google Developer Groups / Google Developer Student Club, SAGE University, Indore | Academic year 2024–2025

• Helped build, engage and nurture the campus developer community through collaborative initiatives.

• Supported a welcoming, growth-oriented tech ecosystem on campus.

EDUCATION

Class X: Government Model Higher Secondary School, Chhatarpur, Madhya Pradesh

Class XII: Rani Durgabati Higher Secondary School

B.Tech, Computer Science and Engineering (Core) | SAGE University, Indore | 2022–2026 | CGPA: 8.03/10

CERTIFICATIONS

• Oracle University — Agentic AI Certified Foundations Associate (Jul 2026; valid through Jul 2028)

• JPMorgan Chase / Forage — Quantitative Research Job Simulation (Jul 2026)

• Tata / Forage — GenAI Powered Data Analytics Job Simulation (Jul 2026)

• Quantium / Forage — Data Analytics Job Simulation (Jul 2026)

• be10x — AI Tools and ChatGPT Workshop (Jun 2026)
